- Ability to decline putting information in for an alternate contact. This can be set with a checkbox in the alternate contact tab during a move-in or through the Contract Details Window.

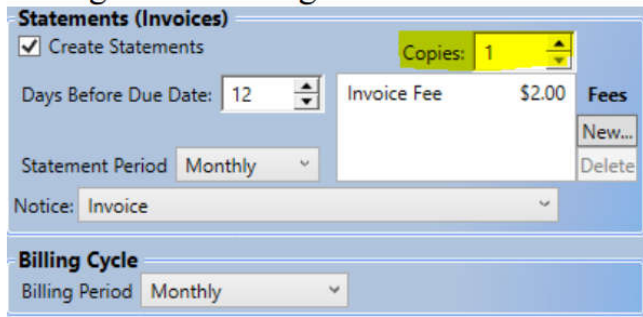

The screenshot shows the 'Contract Details' window for 'Facility: Empower Storage' and 'Unit: 2'. The 'Alternate Contacts' tab is selected in the left-hand menu. At the bottom of the window, there is a 'Decline Alternate' button and a 'New...' button.

- Support added for the Topaz signature tablet systems.

- Added ability to customize the size of signatures for insurance and contracts found in the File > Preferences window. Sizes are set in pixels. The same signature is used for signing insurance and contracts.
- Ability to set the number of invoice copies has been added to the Billing Plan Details window in the Configuration Manager.

- Declined auto credit cards will create an entry in the contract's comments.

Corrections

- The Contract Balance {balance} merge field will show the total balance after an auction fee is charged to the account and a subsequent notice is generated.
- The decline message will remain in the pending autos window until it is closed. The Pending Autos report will still show the last attempt.
- General improvements to the Wacom signature pad functionality.
- Adjusting merchandise will no longer create duplicate adjustment records.
- Setting the number of copies to print for a late notice now works for each individual late notice. Found in the late step setup window in the Configuration Manager.
- Printing the ledger history for a contract prints to the printer selected instead of always printing to the Windows default printer.
- Email address now appears again in the receipt window after a payment or move-in.
- Change Unit Size during move-in security feature is now set apart from Change Billing Plan security feature. Before both would be locked out if the change size feature was disabled.
- Changing auto payment type will ensure the new type is used for any future auto payments.
- OpenEdge auto payment improvements added in this update.
- Typing in a ZIP code to auto-fill the city and state will no longer cause the city to return in all uppercase. The city will be formatted to Title Case.
- Storage Commander no longer defaults to en-US culture settings. It should work without regards to the current computer's culture settings.
- Screen refreshing performance improvements after Move-Ins, Move-Outs, Transfers, Adjustments, Reservations, and Payments.
